

"BUT I DON'T HAVE A TELESCOPE" Challenge 2012

NAME _____

Date _____

Date	Time	Telescope type and aperture	Scope owner's name	Object	Description

This is for those without a telescope. You are to observe 12 objects through 12 different telescopes of various apertures and types. Politely ask if you could look at whatever it is the telescope's owner is observing. Write the objects name and description in the appropriate spaces. This "challenge" gives you the opportunity to learn much about astronomical equipment and to meet some really nice people.
