The sixth sphere en- gaged						
Bridal _____						
To think outside of						
"I'm Forever Blowing _____"						
Columbus's mistake						
DNA						

First solve the riddle or "fill in the blank". Give the common name and NGC or Messier number if it exists. Observe and describe the object completing the form. Good luck but most of all have fun. This can be a group project, but each person needs to complete the form to qualify for the certificate and entry into the Observing Challenge drawing.
